

Application No. 09/324,249
Amendment date: August 28, 2006

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1 - 35. (canceled)

Claim 36. (presently amended): Digital photo ~~delivery~~ processing system comprising:

at least one wireless digital camera apparatus, wherein each said apparatus includes a processor, a memory, and a destination address and one or more previously defined recipient codes stored in said memory; user interface connected to said processor for at least displaying one or more said recipient codes and receiving signals indicating user selection of a displayed recipient code; a digital camera connected to said processor for capturing one or more digital images in response to signals from said user interface; a RF communications device connected to said processor; and processor control means, responsive to signals received from said user interface, for transmitting a message, including at least said selected recipient code and one said digital image, to said destination address via said RF communications device; and
a server associated with said destination address and responsive to messages received at said destination address from each said wireless digital camera apparatus; server memory storing account configuration data including recipient code data; server communications means; and server control means for parsing said recipient code from each said message and processing each said message according to said account configuration data associated with said recipient code, and for transmitting account configuration data including at least one recipient code to at least one said wireless digital camera apparatus; and
wherein said processor control means of each said wireless digital camera apparatus is responsive to receiving account configuration data transmitted from said server to update said memory of said wireless digital camera apparatus with at least a portion of said account configuration

data.

Claims 37 - 61. (canceled)

Claim 62. (presently amended): Digital photo ~~delivery~~ processing system comprising:

at least one wireless digital camera apparatus, wherein each said apparatus includes a processor, a memory, and a destination address and one or more previously defined recipient codes stored in said memory; user interface ~~means~~ connected to said processor for at least displaying one or more said recipient codes and receiving signals indicating user selection of a displayed recipient code; a digital camera ~~means~~ connected to said processor for capturing one or more digital images in response to signals from said user interface ~~means~~; a RF communications device connected to said processor; and processor control means, responsive to signals received from said user interface ~~means~~, for transmitting a message, including at least said selected recipient code and one said digital image, to said destination address via said RF communications device; and

a server associated with said destination address and responsive to messages received at said destination address from each said wireless digital camera apparatus; ~~server memory~~ a database storing account configuration data including recipient code data; a server communication devices ~~means~~; and server control means for parsing said recipient code from each said message, retrieving from said database account configuration data that is associated with said recipient code, and processing each said message according to said account configuration data ~~associated with said recipient code~~.

Claims 63 - 74. (canceled)

Application No. 09/324,249
Amendment date: August 28, 2006

- Claim 75. (new):** Digital photo processing system of Claim 62, wherein said server control means processing of said message further comprises archiving said message on said server.
- Claim 76. (new):** Digital photo processing system of Claim 62, wherein said server control means processing of said message further comprises distributing said message to one or more recipient addresses associated with said recipient code in said account configuration data.
- Claim 77. (new):** Digital photo processing system of Claim 62, wherein said message further comprises an account identifier, said database configuration data includes an account identifier, and said server control means is for retrieving from said database account configuration data that is associated with both said account identifier and said recipient code.
